## Downgauged Draw String for Can Liners

As suppliers, we continue to face pressure to lower costs and use less materials. This challenging feat is easily accomplished by utilizing **Eclipse’s** downgauged draw string films that provide the desirable combination of processability and strength...all while remaining comfortable and soft for the consumer.

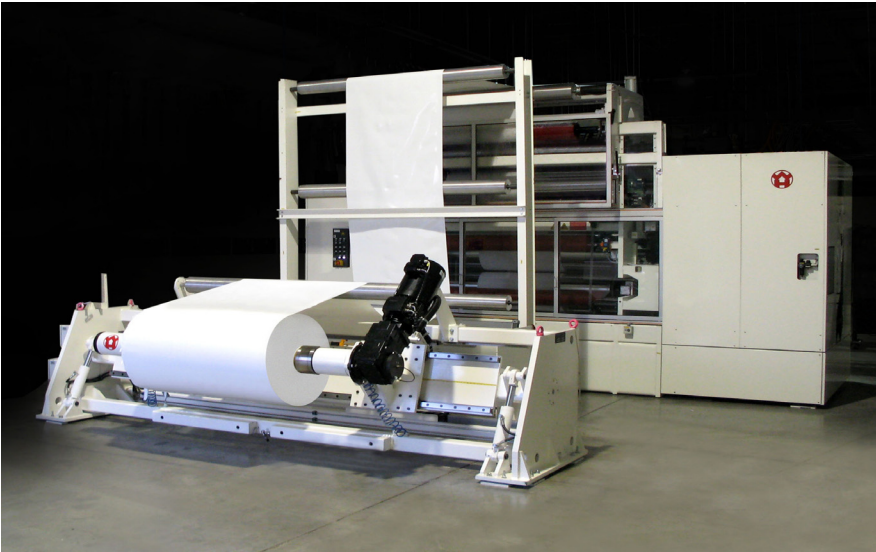

Converters are continuously challenged to:

-  Develop sustainable products
-  Lower overall packaging costs
-  Improve process efficiencies

Technical Data	XEO-08016	Standard
<b>Gauge (mils)</b>	1.3	2.1
<b>Modulus (psi)</b>	60,000	150,000
<b>Yield Strength (psi)</b>	16,000	10,000
<b>Load strength (lb)</b>	21	21
<b>Seal Temperature @ 5 lb/in strength (°F)</b>	215	255
<b>COF</b>	0.11	0.18

**Eclipse’s** draw string films provide:

-  Significantly improved yield (MSI/lb)
-  Enhanced sustainability and source reduction
-  Excellent strength with a “Soft Feel”
-  Improved processing and efficiencies

## Downgauged Draw String for Can Liners

### Advantages

-  High strength
-  Soft touch and comfort for consumer use
-  Overall cost savings
-  Yield enhanced
-  Superior machinability
-  Improved sustainability
