## Downgauged Twist Film with Excellent Dead Fold

Pressures increase to reduce cost and improve the sustainability of flexible packaging. This challenging feat is easily accomplished by utilizing one of **Eclipse's** polyolefin twist films that provide unprecedented dead fold at a significantly thinner gauge.

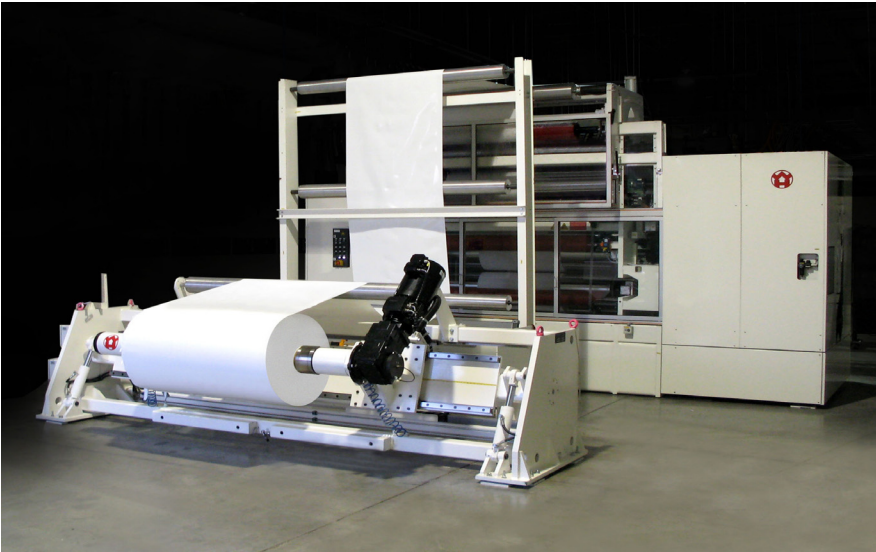

Converters are continuously challenged to:

-  Develop sustainable products
-  Lower packaging costs
-  Improve processing efficiencies
-  Develop packaging that “**POP's**” off store shelves

Technical Data	XEO-07054	Standard
Gauge (mils)	0.8	1.2
Modulus (psi)	700,000	300,000
45° Gloss	60	70
Haze	8	5

**Eclipse's** twist films provide:

-  Significantly improved yield (MSI/lb)
-  Improved sustainability and source reduction
-  Excellent dead fold = improved processing & package quality
-  Improved processing and efficiencies

## Downgauged Twist Film with Excellent Dead Fold Advantages

-  Excellent dead fold and twist retention
-  Printable
-  Good sealability
-  Improves sustainability through material reduction & selection
-  Eliminates less desirable materials (PVC & cellophane)
-  Reduces overall packaging costs
